

Nicor Gas is the 5th largest gas distribution company in the United States, serving about 1.9 million customers in 641 northern Illinois communities. The combination of a flexible rate structure, well developed underground gas storage capability and connection to five interstate gas pipelines accessing all the major gas producing areas of the country enable Nicor Gas to provide reliable, economical natural gas supplies all year. Utility costs are among the lowest in the nation, and large users who purchase their supplies from sources other than the utility have the advantage of one of the country's most competitive gas markets.

Rates

The following rates are for fully bundled retail gas service that includes provision of gas supplies. Gas supply prices vary depending on supply and demand. Nicor Gas offers a variety of transportation rates for customers who choose to purchase their gas commodity from sources other than the utility. Transportation rate options include:

Firm Transportation in which customers purchase supplies from another source and contract with Nicor Gas for delivery and 100% backup.

General Transportation in which customers purchase supplies from another source and contract with Nicor Gas for delivery and varying storage levels and firm backup options.

Rate studies to assist you in determining the best rate option are available on request by calling 1-888-Nicor4u.
